Announcement/ Public Notice

Subject: All Eligible Indian Citizens are urged to Vote in Lok Sabha Election 2019

Delhi Greens urges all eligible Indian citizens to participate in Lok Sabha Election 2019 and cast their vote. Voting is the best way to get your voices heard and elect the most suitable candidate who can work for the welfare of everyone. Voting is not only your right, it is also your responsibility. It is also the symbol of your power in a democracy and the opportunity for you to shape your destiny, and the destiny of generations to come.

India is the world's largest democracy. The Election in India is therefore closely watched by the world. Greater participation in Election in India will serve as reminder to the people of existing democracies about the power they have in deciding about their destiny. It will also serve as a way of promoting democratic ways of doing things in countries where democracy is wanting. We therefore once again urge all eligible Indian voters to participate and vote in Lok Sabha Election 2019.
